I should be glad if the offices of the Assistant District Commissioners, Nablus, Tulkarm and Jenin can be supplied with official seals. There is a considerable volume of Secret and Confidential correspondence for dispatch not only to Government Departments but also to Military formations. This correspondence has to be enclosed in sealed envelopes. I consider that it would be more compatible with the dignity of the District Administration that their correspondence should be sealed with an official seal, representing the royal cypher, or other suitable emblem, than the end of a ruler or a one millim piece, as is the custom at present.
